

United Way Hungary traditionally hosts a Gala event towards the end of the year to thank our donors for their support and give them an overview of the social issues we plan to focus on for the upcoming period. Funds raised during this event will be spent on programs helping children and youth – especially those of underprivileged families – boost their academic performance and become self-sustaining adults through improved reading, comprehension and financial literacy skills as well as through an understanding of the concepts of entrepreneurship and career planning.

November 17, 2019, 18:30 | Budapest Marriott Hotel

Our guests at the 35 tables will be dedicated visionary leaders of the corporate and civic sectors who demonstrate philanthropic leadership through actions. They are actively committed to finding solutions to the problems and creating lasting changes in their communities.
