

United Way Hungary traditionally hosts a gala event towards the end of every year, to thank our donors for their generosity and give an overview of the areas we plan to focus on to advance the common good in the years to come. Funds raised during this event will be spent on programs helping children and youth – especially those from the disadvantaged families, often living at risk – to catch up and to learn how to support themselves through improving their reading, comprehension, and financial literacy skills, expanding their knowledge of entrepreneurship, as well as conscious career planning.

November 4th 2018, 18:30 | Budapest Marriott Hotel

Our guests at the 35 tables will be visionary and influential corporate and civic leaders who demonstrate their personal philanthropic leadership by their actions. They are actively committed to finding solutions to problems and creating lasting changes in their communities.
